

Birds, endemic to the Albertine Rift*

*A total of 41 species of bird are endemic to the Albertine Rift. This list combines two of Birdlife International's endemic bird areas (Albertine Rift and Eastern Zairean Lowlands) because there is overlap in the distribution of some of these species.

Family	Species	Common name	IUCN	AR endemic
Phasianidae	<i>Francolinus nobilis</i>	Handsome Francolin		AR
Musophagidae	<i>Tauraco johnstoni</i>	Rwenzori Turaco		AR
